"Committed to Quality Education for Our Children's Future"

September 2019

Salutations and Welcome Back!

What a great start to the new year! We are committed to achieving growth on our School Improvement Goals. The focus of our goals are to keep each student physically, emotionally and academically safe. Our Homeroom structure that we introduced last year allows one adult in the building a whole year to work with and care for a group of students...making that important connection that will benefit all involved.

We have focused our efforts on assisting our students in gaining the perspective we hope everyone will share and demonstrate. We want a school where all students and staff are valuing one another. We want to value others; their uniqueness, their perspective and their story. We seek to acknowledge that everyone hurts at some point and it is our responsibility to support one another. We want to promote an environment where students build positive relationships where they encourage, care and help one another. We call this a Culture of Value. If we have this, then students will be safe and can achieve to their fullest potential.

Life is good! We are getting into the school year groove and becoming comfortable with one another. We have a commitment to perpetuate the safe environment everyone deserves.

In closing, the right systems are in place and the right people are working on the right things. If we can uphold our commitment to keeping each kid safe physically, emotionally and academically... life will be good at Hopkins High School... Go Vikings!

Yours in Education,

Ken Szczepanski, HHS Principal
