CALL OR EMAIL the office with any bus/pickup needs! This is the job of the office. It is confusing when teachers juggle this information.

COVID-19 Daily Student Screening Guidance:

Keep your children home from school if you have any of the following Symptoms -

- Temperature of 100.4 degrees Fahrenheit or higher when taken by mouth
- Sore throat
- New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
- Diarrhea, vomiting, or abdominal pain
- New onset of severe headache, especially with a fever

Close Contact/Potential Exposure -

In the past 14 days has your child:

- Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-19: **OR**
- Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person under quarantine for possible exposure to COVID-19: **OR**
- Had a travel history

If you have any of the symptoms listed on the left AND have had close contact/potential exposure, call the school as soon as possible to let them know the reason your child(ren) won't be at school. Call your health care provider right away. If you don't have one or cannot be seen, go to www.mi.gov/coronavirustest or call 2-1-1 to find a location to have your child(ren) tested for COVID-19.

If the answer is **YES** to any of the symptom questions, but **NO** to any close contact/potential exposure questions, your student may return to school based on the guidance for their symptoms (see "Managing Communicable Diseases in Schools"):

- Fever: at least 24 hours have passed with no fever, without the use of fever-reducing medications
- Sore throat: improvement (if strep throat: do not return until at least 2 doses of antibiotic have been taken)
- Cough/Shortness of breath: improvement
- Diarrhea, vomiting, abdominal pain: no diarrhea or vomiting for 24 hours
- Severe headache: improvement
